

## It's Featured Artist Friday!

Thanks for joining us this week! As always, we deliver faithfully and we have three new songs to add to the rotation. First one up is "Twang" by George Strait. In case any of you didn't know, George Strait still holds the record for artist with the most #1 charted songs ever, with a shocking 52 #1 hits. He sure does have the stuff. Second up is "Going On Later On" by Mark Chesnutt. He once appeared in a comedy outdoor program called Mike and T.K. Outdoors, where he tried to catch a fish with the show's host. Finally, we have Carrie Underwood's "Temporary Home". Her current album, Blown Away debuted at number one on the Billboard 200. To Recap:

- Twang – George Strait
- Going On Later On – Mark Chesnutt
- Temporary Home – Carrie Underwood
