[KD Moore](#) and 'Fingers' Taylor released "Beachcombin'" as the title track for their 2007 album.

[Joe Ely](#), of the Flatlanders, is a native Texan who has played with everyone from the Clash to Lyle Lovett. This song is from his *Must Notta Gotta Lotta* album.

Another native Texan band, the [Bois d'Arcs](#) hail from the town of Muenster. "Backroads of Texas" comes from their self-titled album.

[Don Middlebrook and Living Soul](#) come from Michigan and this song is based off a (supposedly!) true incident involving the band. This track can be found on their *Changing Lanes* album.

The "Duval Crawl" is from the *Down to the Islands* album. [The Caribbean Cowboys](#) got their start in North Carolina and have played everywhere there is a coastline.
